GENERAL INFORMATION

The Officers and Members of the Chicago Coin Club take great pride in welcoming you to this historic numismatic event. It is our sincere hope that you will enjoy your brief stay in our city and that you will want to return in the future.

The Sheraton-Chicago Hotel is located at 505 North Michigan Avenue on Chicago's famed "Magnificent Mile." You will find your Convention hotel handy to the main shopping district of the "Loop," as well as to the unexcelled shopping of North Michigan Avenue. We hope you will take advantage of the many opportunities Chicago has to offer. Whether it's a major league baseball game, the night life, or shopping, our General Chairman and his committee stand ready to answer any questions you may have.

However, we would like to caution you most strongly not to leave any valuables in your hotel room. While the Convention Committee and the Hotel have taken every precaution to make this a "loss free" Convention, valuables left in guest rooms is an open invitation to theft. We urge you to utilize the security room that has been set up on the seventh floor (north) for your convenience. The security room will be open during regular Convention hours Friday, Saturday and Sunday. In addition, the room will be open from noon Wednesday until noon Monday following the Convention. Address additional questions regarding the security room, to our Security Chairman, Jim Babka.

We hope you will take advantage of the program our Committee has planned for you. All individuals desiring to enter the bourse room must be registered. The paid registration includes a souvenir token, a souvenir badge and program booklet, as well as the right to use the Franklin Mint's Hospitality Room, and to attend the Ladies' Luncheon on Saturday afternoon. The paid registration also helps make the Convention a financial success. A non-paid registration is also available.

Our Ladies' Luncheon will be a special treat this year. Open to all ladies who have a paid registration, the luncheon will include a demonstration by Robert Pope, of the world famous Pope School of Fancy Cooking. Tickets for the luncheon may be purchased for \$3.00 at the registration desk. Reservations are limited.

The educational program will be a numismatic panel discussing the question: "Numismatics as a University Curriculum Subject: Fact or Fiction?" The panelists will be Vladimir Clain-Stefanelli, Curator of Numismatics of the Smithsonian Institution; Elvira Clain-Stefanelli, Associate Curator of Numismatics of the Smithsonian Institution; Dr. Allen R. Feinberg, well-known Midwest collector, and a noted member of the academic community. The moderator will be your Educational Chairman, William A. Pettit. The panel will discuss the various facets of this subject that has seldom been presented with all sides represented. Be sure to attend this program.

The Saturday night banquet will be a special treat. A delicious meal will be followed by a short business program, with Lee F. Hewitt serving as master of ceremonies. Entertainment will follow. Tickets for the 8:00 P.M. banquet, which is preceded by a Dutch treat cocktail hour, are \$8.00 each, and may be obtained at the registration desk.

We hope you will enjoy the Convention, bid in RARCOA's auction, attend the unique educational program and the business meeting, and generally enjoy yourselves. We are so glad to have you in Chicago. Thank you for coming.

CCC — 50 YEARS OF NUMISMATIC LEADERSHIP

This Convention marks the Fiftieth Anniversary of the founding of the Chicago Coin Club. While there are a number of older numismatic organizations in the United States, no metropolitan club has had the effect of the group that was established February 14, 1919.

The history of organized numismatics in Chicago, however, predates the birth of the Chicago Coin Club by some sixteen years. The first such group was founded in 1903 by many of the same members who later formed the nucleus for the C.C.C. membership. This group was known as the Chicago Numismatic Society. The outstanding medallic art issued by the C.N.S., from 1903 until 1915, form an unique part of Chicago numismatic history. The medals and tokens, designed by J. Henri Ripstra, Carl Schreiber, and other members of the Society, are today highly prized numismatic items.

The solid support of the American Numismatic Association by the Chicago collectors is demonstrated by the establishment of Chicago Branch #1 of the A.N.A., from 1912-1914, and from 1917-1919. The group issued a metallic membership card with the member's number struck incuse.

The establishment of the C.C.C. brought together all the collectors in Chicago. At the February, 1919, meeting 35 members chose their charter membership numbers by lot. Among those receiving charter memberships that day were Ripstra, Alden Scott Boyer, R. E. Davis, Dr. Al M. Rackus, William F. Dunham, B. Max Mehl, and many other names that were nationally known in numismatics. It is sad that there are no living charter members to celebrate this anniversary.

The history of the Club since 1919 has been one of constant leadership. The membership roster of the Club continues to read like a "Who's Who" in Numismatics. A listing of Chicago Coin Club members who have served with honor as elected officers of the American Numismatic Association, the Central States Numismatic Society, and many other organizations, would fill numerous paragraphs. The ranks of the Club include many journalists, authors, leading exhibitors, as well as other leaders in all areas of our hobby.

The medallic heritage of the Chicago Coin Club has continued to the present day. The issuance of the beautiful Fiftieth Anniversary medal, designed by Trygve Rovelstad, is truly within the tradition of J. Henri Ripstra. Convention visitors may view a virtually complete collection of Chicago Numismatic medals and tokens in our display room. Today, as the Chicago Coin Club looks forward to its Centennial in 2019, it does so with pride, and with the hope that it will continue to serve all areas of numismatics.

CENTRAL STATES — THE REGIONAL LEADER

The Central States Numismatic Society was founded thirty years ago this week. In 1939 there was one coin show all year, the annual convention of the American Numismatic Association. Collectors in the central region of the country began to consider holding their own meeting so that collectors could get together more than once a year. The meeting was planned by Lee Hewitt and Vernon Sheldon, both of whom will be on hand at the Anniversary celebration. The 1939 meeting, although planned only as a "one shot" gathering, was such a success that before the meeting came to an end the Central States Numismatic Society was formed.

The C.S.N.S., oldest of the now numerous regional organizations, has weathered thirty years of numismatics. The roster of Cenertal States has contained the elite of numismatics, and those men who have held offices in Central States have been nationally known in our hobby. Today, the C.S.N.S. issues a quarterly publication, THE CENTINEL, which is sent to members without charge other than the annual dues.

Collectors in the thirteen states served by Central States are provided with a strong organization to represent them, an important numismatic convention as an annual event, a nationally recognized publication — all for the low dues payment. Collectors who are not members of Central States are urged to write to the Society's secretary, F. S. Epps, P. O. Box #97, Homer, Michigan 49245, for membership information.

HIGHLIGHTS FROM THE LIFE OF AN OUTSTANDING NUMISMATIST

Mr. August F. Hausske was born in Chicago in 1889. His long working career began in 1904 and covered 54 years. During his early years he attended night school, studying accounting and mechanical drawing. He spent 35 years working his way up through the ranks of the Curtiss Candy Company.

Among his executive positions he was Purchasing Agent for the company for almost half of his 35 years there. At the time of his retiring in 1958, he was President of the Equipment Finance Company, a Curtiss owned subsidiary. Since his retirement, Mr. Hausske has devoted much of his time to the Numismatic hobby in helping others.

Mr. Hausske started collecting coins in 1953 by building sets of coins for his grandchildren. He became interested in the hobby himself and began to assemble a choice Type Set of United States coins from Half Cents through Double Eagles. He became extremely interested in exhibiting, and built one of the finest U.S. coin displays to be shown in recent years. He has won First Place in U.S. Coins twice at A.N.A. Conventions, and the Best in Show at one. In addition to these great honors, he has also won the Best in Show at Metropolitan New York show, and First Place in U.S. Coins at numerous other shows, including Regina, Canada, and Central States.

His interest in exhibits led him to be a Judge for A.N.A. Conventions eight times, as well as to judging at least 250 other coin shows. He has served on the A.N.A. Exhibit Rules Committee, drafting the exhibit rules for both A.N.A. and the C.S.N.S. For his work on Committees, he has been awarded the Medal of Merit from the A.N.A., Central States Numismatic Society, and the Chicago Coin Club. He has also served on the Board of Governors of CSNS and the Chicago Coin Club.

**COMPLETE PANAMA-PACIFIC SET IN
ORIGINAL COPPER FRAME**

283. This complete set of five coins was issued for the Panama-Pacific Exposition held in San Francisco in 1915 to commemorate the completion and opening of the Panama Canal.

The San Francisco mint coined 1509 complete sets to be sold at the Exposition for a little over \$200 a set. Of the 1509 sets originally minted, only 483 were sold and the remaining sets were returned to the mint to be melted down.

This most unusual and artistic set consists of five coins which include the Half Dollar, Gold Dollar, \$2.50 Gold, and two \$50.00 pieces, one round and the other octagonal in shape. The \$50.00 coins are most interesting, as they are the largest coin denominations ever authorized by Congress!

This set is housed in the original Copper Frame which is quite rare in itself. The coins are set in purple velvet, with description cards of a lighter shade of purple, and gold lettering below each coin.

This truly superb set will give great pride to the Numismatist who desires the best.

EXTREMELY RARE 1875 GOLD DOLLAR

Lot No. 448

448. 1875. The lowest issue of the Gold Dollar series. Only 420 pieces struck, with perhaps less than 50 coins in existence today. Most of the time, this date appears only in Proof condition, and has a present catalog value of \$3,500 thus. Circulated coins appear less often than Proofs. The condition of this piece is VERY FINE, but the coin is not perfect. It has evidences of having been mounted, and might once have been used as jewelry. It has been expertly repaired, however, but the "T" of STATES, and the "A" of AMERICA do show traces of work. The reverse and the date are especially nice. Despite this, it has a relatively pleasing appearance. Here is an opportunity to fill that date at a lower cost. It could be 10 to 20 years before such an 1875 comes up again.
449. 1876. Brilliant Uncirculated with proof-like surfaces.
450. 1877. About Uncirculated with much mint luster.
